

1. Measure Your Space

Accurate measurements as indicated in the measuring procedure are the key elements we will need to plan your new kitchen. With this information, our kitchen specialists will be able to help design the kitchen of your dreams!

FLOOR PLAN

Before any planning can start we must know the exact dimensions available to work with. Using the measuring procedure illustrated, carefully prepare a simple floor plan of your existing kitchen.

Your completed floor plan should resemble the diagram shown below. Make sure you show exact locations of doors, windows, hood vents, exhaust, gas line, water line, drains, switches, outlets, light fixtures, and heat vents. Double check all measurements.

EXAMPLE FLOOR PLAN

2.

Appliance/Fixture Information

Show desired locations of appliances on drawing. It is very important to indicate natural gas locations, 220 volt outlets, any wall mounted telephone locations (T) and cable TV locations (CTV).

	Type	Size W x D x H	Hinge Position L/R (Facing Appliance)
	Refrigerator		
	Range		
	Cooktop		
	Exhaust Hood		
	Wall Oven		
	Microwave		
	Dishwasher		
	Sink		
	Disposal		
	Compactor		
	Freezer		
	Other
